Forno Series (on-a-cart)

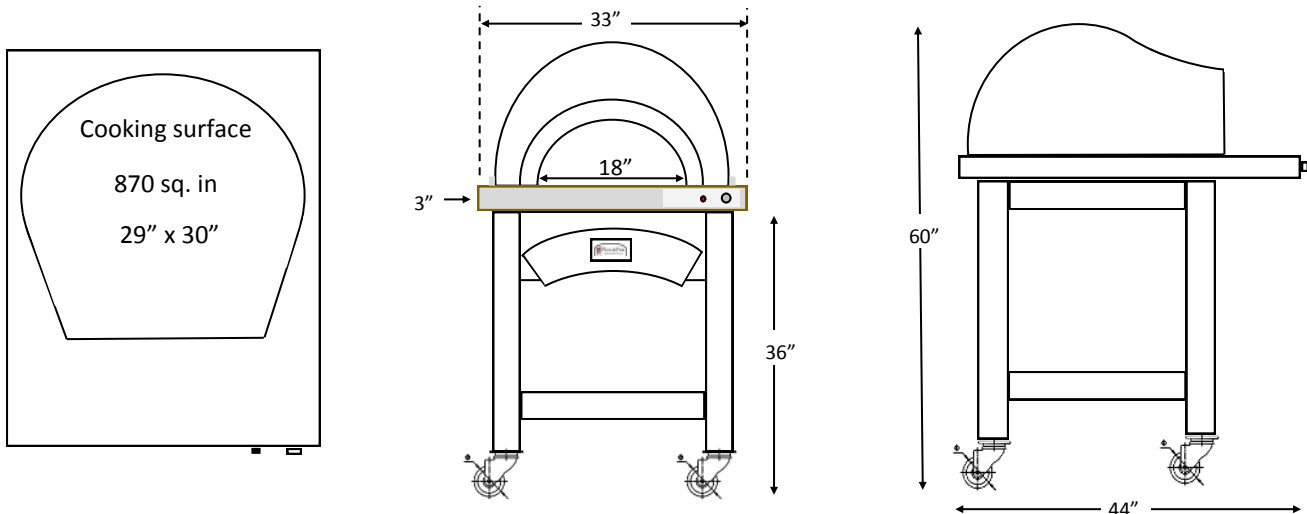

The **Forno** Series is on-a-cart dual fuel oven that can be wheeled around easily. While it weighs around 450lbs, it can be also taken apart and transported to various locations. Forno de Pizza uses its electronic ignition system “*Simple Start Technology™*” to start the wood. And, as a secondary source of heat when needed. Powder coated black cart and intricate handcrafted glass mosaic oven displays harmonious design. *HPC Fire Inspired* offers the choice of six hues of mosaic glass to give the oven an elegant unique finish.

Forno Series Specifications

Tile Color	Gas type	Model
Ocean Blue	Natural gas	FDP-FORNO/OB-EI-NG
Ocean blue	Liquid propane	FDP-FORNO/OB-EI-LP
Pool blue	Natural gas	FDP-FORNO/PB-EI-NG
Pool blue	Liquid propane	FDP-FORNO/PB-EI-LP
Simply red	Natural gas	FDP-FORNO/SR-EI-NG
Simply red	Liquid propane	FDP-FORNO/SR-EI-LP
Black Onyx	Natural gas	FDP-FORNO/BO-EI-NG
Black Onyx	Liquid propane	FDP-FORNO/BO-EI-LP

Retro	Liquid propane	FDP-FORNO/Retro-EI-LP
Copper	Natural gas	FDP-FORNO/Copper-EI-NG
Copper	Liquid propane	FDP-FORNO/Copper-EI-LP
Custom color	Natural gas	FDP-FORNO/custom-EI-NG
Custom color	Liquid propane	FDP-FORNO/custom-EI-LP

Includes Glass Tiled Oven, Stainless Steel Hearth, Vent, Powder Coated Black Steel Cart

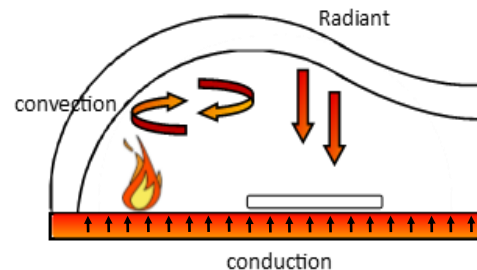

What is refractory?

A refractory material is one that retains heat, its strength, and shape at high temperatures. Forno de Pizza's refractory material can withstand temperatures up to 2400 degrees.

Unlike other ovens in the industry that are heavy, multi pieced or made out of sheet metal; Forno de Pizza, is shaped as one piece brick oven. It allows to be moved easily, maintaining its shape and aesthetics of a century's old oven.

This domed shape enables the best functional heat distribution in the oven. Its two inch refractory wall thickness retains and reflects heat back to the inside of the oven maintaining a longer lasting temperature. Three main types of heat are generated : Convection-

Convection - Radiant - Conduction

Villa Series (built-in)

The **Villa Series** is simply the **Hearth and oven** installed in a built-in application. It is available in LP as well as Natural Gas. Installation is

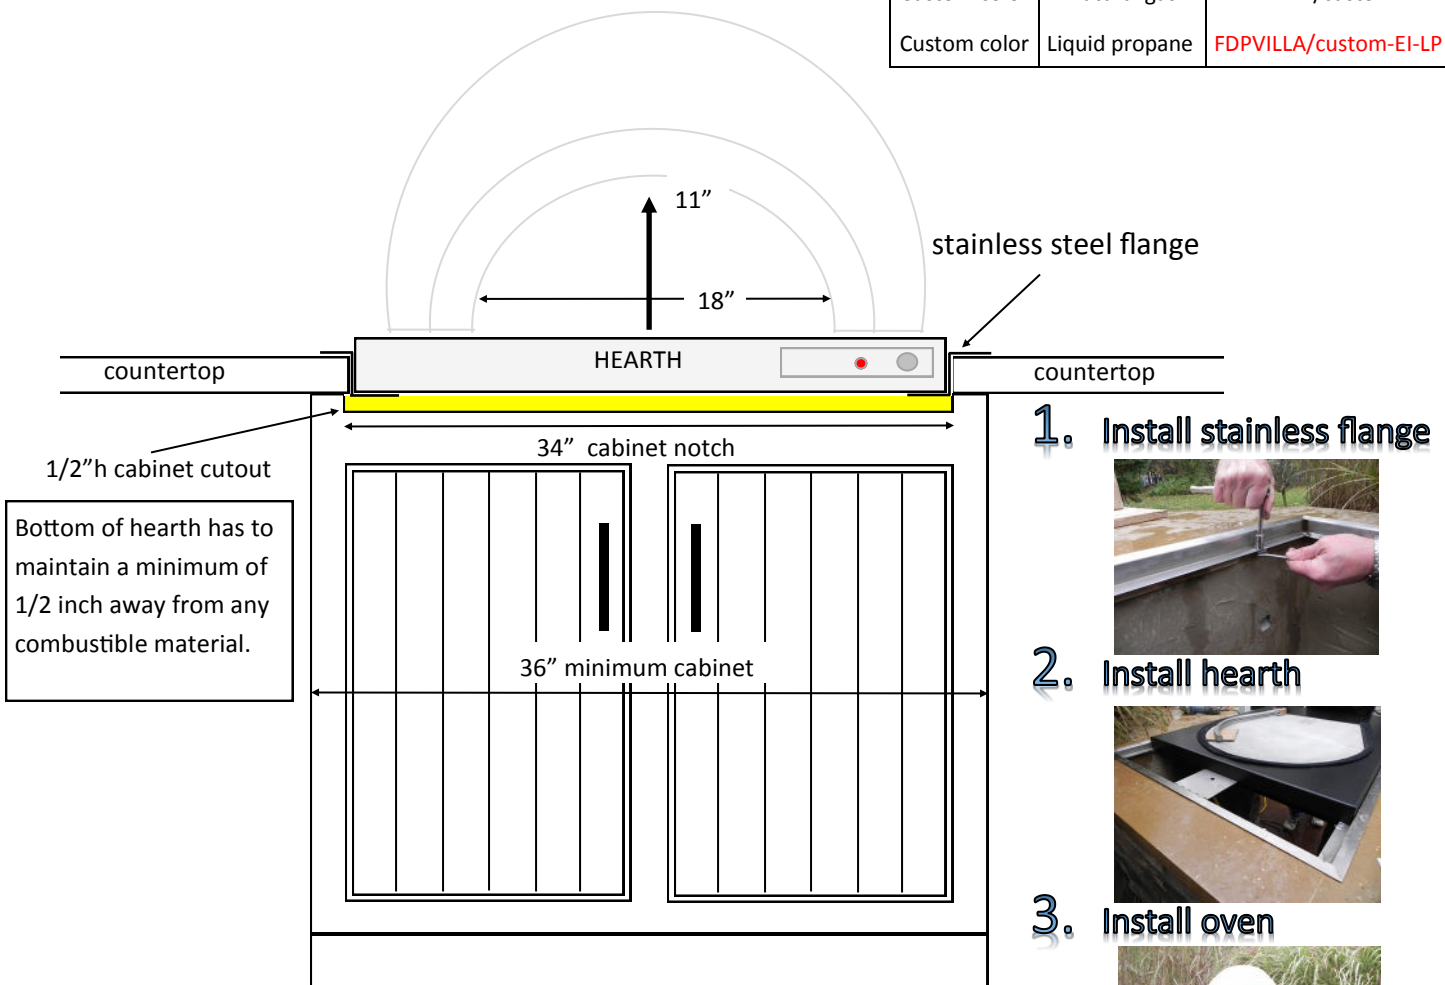

completed in 3 easy steps. It requires a 35" deep counter and is paired with a custom stainless steel flange. The Villa is the lightest authentic brick dual-fuel-oven on the market. It uses its electronic ignition system "Simple Start Technology™" to start the wood; and, as a secondary source of heat when needed.

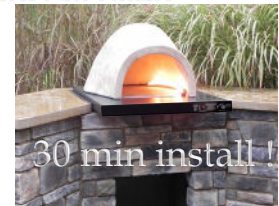

Includes Glass Tiled Oven, Stainless Steel Hearth, Vent, Stainless steel flange
